OVERVIEW

ICICIS 2021 is a premium International Conference that covers areas related to theory, development, application, and evaluation of advancements in computing technology. It gathers researchers in these fields from all around the world. This conference acts as an international forum for researchers and practitioners interested in the advances of artificial and computational intelligence as well as intelligent information systems. It is an opportunity to present and observe the latest research, results and ideas in those areas. It is organized by Faculty of Computer and Information Sciences (FCIS), Ain Shams University, Cairo, Egypt. All accepted papers will be published in the conference proceeding which will be published in IEEE and abstracted/indexed in Scopus, Google Scholar, …. and many others A&I partners.
